Kindly preview the below recommendations to make your weight loss journey with us more interesting and easy;

Firstly; the quality of food written in your meal plan is what your body needs at every weight loss stage for your body metabolism, body organs and function and this is not something for lifetime, this is to reach your ideal and healthy weight in a fast and healthy way.

At every stage there will be elimination or addition for specific food items and quality based on your weight loss, body response to the diet, and the differentiation in your body composition of the fat%, Visceral fat, water % and protein %

Make sure that nothing is forbidden or allowed to you lifetime, but there is a specific quality of food that you should or should not eat at every stage of your weight loss journey.

There are no specific quantities to eat, you can eat until you are super full from all the food items written in your meal plan but the very important thing that anything not written you should not eat at all since it will not affect only your weight loss but also your overall health.

At every meal there is more than one choice, these are choices you can eat them all or choose the most preferable one but the better to eat them all for the nutrition value

It is allowed to you to drink coffee, tea and herbs without adding sugar and without milk if the milk is not written in your meal plan.

You should drink every hour one cup of water and it's very important to keep your body hydrated.

There are no specific timings for the meals, but keep from 2-3 hours between every meal and stop eating before sleeping with 3 hours for better digestive processes.

To achieve best results you should commit day by day for the meals written, but also you can replace between the days and meals written in your schedule to make it easier to you.

It is allowed to replace chicken by chicken, meat by meat and fish by fish but it is not allowed to replace chicken with meat or meat with chicken or fish with meat or chicken.

You can replace between the salads types and the vegetables written in your food schedule.

You should not add anything not written in your meal plan since this will not affect only your weight loss progress but it will affect your health negatively

For the physical activity; it is preferable not to do any type of physical activity during your weight loss journey, since extra effort will make the body secrete specific hormones like cortisol which is a stress hormone that makes weight plateau.

For the results of your test; your results are your meal plans and the quality of food written in your schedule, the meal plans that you will receive will guarantee you losing your needed weight based on your subscription.
